Projects

Frontend Developer & Technical Project Manager — Forge —Mobile Application   SEP 2025 - DEC 2025
- Built a mobile application in an 8-person cross-disciplinary team to help high-school students explore skilled-trade career pathways
- Implemented UI components from UX designs and integrated AI-assisted features in an Agile workflow

Full Stack Developer & Scrum Master — LendItOut —Web Application   APR 2025 - MAY 2025
- Developed a responsive web application in a 3-person team based on Figma designs
- Converted high-fidelity UI/UX mockups into a functional live application

Experience

Full-Stack Developer - Community of Guardians (Internship)   JAN 2026 - Present
- Developing and maintaining features for a nonprofit social platform aligned with UN Sustainable Development Goals
- Collaborating with a cross-functional team using Agile practices (Git, Taiga, code reviews)
- Building responsive front-end components and integrating them with backend APIs

Full-Stack Developer - Beautyshohre Studio   JUN 2025 - Present
- Designed, built, and deployed a **production full-stack web application** for a real beauty business
- Implemented online booking, scheduling logic, admin dashboard, and client management features
- Owned the project end-to-end: requirements, architecture, deployment, and post-launch updates
- Providing ongoing maintenance, updates, and feature enhancements based on client needs

Customer Operations & Team Lead (Sales & Cash) - Lordco Auto Parts   NOV 2019 - MAR 2025
- Assisted ~100 customers daily (phone & in-person), diagnosing needs and recommending correct automotive parts
- Led and scheduled a team of 4 cashiers in a high-volume environment
- Handled high-volume cash and card transactions; reconciled daily balances and prepared deposits
